STATE LIBRARY OF IOWA

2000 PUBLIC LIBRARY GENERAL INFORMATION SURVEY

(July 1, 1999-June 30, 2000)

Part I-General Information

Information in this section will be used to identify the library and to ensure that the data reported for the library is listed correctly in the Iowa Public Library Statistics. Enter data in boxes with double lines.

1.	City		
2.	County		
3.	Region	Note: Use two-character abbreviation only	
4.	Actual Name of Library		
5.	Library Director/Administrator		

Line 3 **REGION.** Use the two-character abbreviation only. Use the abbreviation for your region. CE=Central, EC=East Central, NC=North Central, NE=Northeast, NW=Northwest, SE=Southeast, SW=Southwest. If you are not sure in which region you are located, please call the State Library (1-800-248-4483) for help.

Line 4 **ACTUAL NAME OF LIBRARY.** Put the name of your library (for example: Carnegie-Stout Public Library).

Line 5 **LIBRARY DIRECTOR/ADMINISTRATOR.** This is the name of the person hired to be responsible for operating the library.

Part II-Staff

INCLUDE UNFILLED POSITIONS IF A SEARCH IS CURRENTLY UNDERWAY. INCLUDE ALL EMPLOYEES PAID BY THE LIBRARY.

Positions by Number and FTE			
6.	Paid Librarians		7. Paid Librarians FTE
8.	All Other Paid Staff		9. All Other Paid Staff FTE

Lines 6-9 **FULL-TIME EQUIVALENT EMPLOYEES.** Report figures as of the last day of the fiscal year. To ensure comparable data, 40 hours per week has been set as the measure of full-time employment for this survey. To compute full-time equivalents (FTE) of employees in any category, take the number of hours worked per week by all employees in that category and divide it by 40. When figuring the Full-Time Equivalents (FTE), carry your figure to two decimal places, but no more than two. Examples: ABC Library has 2 librarians and 1 clerical employee. One librarian works 20 hours per week, the other works 6. Examples of Lines 6-9 would look like this:

Line 6-7 **PAID LIBRARIANS.** 2 00.65 The 00.65 was the result of dividing 26 total hours by 40. Persons with the title of librarian do paid work that usually requires professional training and skill in the theoretical or scientific aspects of library work, or both, as distinct from its mechanical or clerical aspect. Staff members are considered librarians if they do professional library work such as administration, reference, cataloging, or selection.

Line 8-9 **ALL OTHER PAID STAFF.** 1 00.13 The 00.13 was arrived at by dividing 5 hours by 40. This includes all other FTE employees paid from the reporting unit budget, including plant operations, security, and

maintenance staff. For example, a clerical worker who works 5 hours per week is .13 FTE.

Levels of Education			
			Total FTE
10.	Masters of Library Science		
11.	Other College Degree (2 or 4 year) (exclude #10)		
12.	High School Graduate (exclude #10 and #11)		

Line 10-12 **LEVELS OF EDUCATION** Use the directions above (6-9) to compute full-time equivalents (FTE) for each level of education. FTE is reported only at the highest level of education completed and not included again for the other levels completed.

Volunteers			
13.	Number of Volunteers		
14.	Annual Total Number of Hours Worked by Volunteers		

Line 13 **NUMBER OF VOLUNTEERS.** Report unpaid library workers. Do not include Green Thumb employees or employees paid by another agency.

15. Education Level Achieved by Director (check one)			
Masters in Library Science		Two-year college degree	
Other Masters Degree		Some college	
Bachelors in Library Science		High School Graduate (or equivalent)	
Other Bachelors Degree		Did not graduate from High School	

Certification		
16. Is the library director certified by the State Library? (Y or N)		
17. Number of other staff members certified?		

Part III-Library

Show all sources of funds for 1999-00.

REPORT ALL INCOME AS WHOLE DOLLARS ONLY; OMIT CENTS. If your library does not have an item in its budget or if the information is not available, enter NA. Include any funds carried over from the previous year. Enter each source of income on only one line, e.g. if fines and/or fees are included in Line 18, enter "0" in Line 41.

For each line, enter the amount of income received and the amount actually expended (operating income, see explanation for Line

Do NOT include here the value of any contributed or in-kind services and the value of any gifts and donations, fines or fees. In-kind is the provision of services by another agency in place of some cash support, such as a situation in which the city pays the electricity for the library, but not out of the library budget.

Line 19 **CAPITAL OUTLAY.** All income from the city budgeted for fixed assets or additions to fixed assets, except for the purchase of library equipment. Include income budgeted for sites, buildings, additions to buildings and furnishings.

48.	Total Operating Income (#44-47) spent for operating costs			

Line 44-48 **OPERATING INCOME.** Operating income is 1999-00 income which was used to operate the library in 1999-00. Report only income used for operating expenditures. If the library received \$30,000 in income from all sources but only spent \$25,000 for standard operating expenditures, the operating income would be \$25,000. Include federal, state, or other grants which were used for operating expenditures. Do not include: income for major capital expenditures; contributions to endowments unspent in fiscal year 2000; income passed through to another agency; income such as gift funds or city income placed in a Trust and Agency account; or any funds unspent in the previous fiscal year.

Line 44 **OPERATING INCOME FROM LOCAL GOVERNMENT.** Report tax and nontax receipts allocated by the community,

district, or county of the public library and available for expenditure by the public library. Do not include here the value of any contributed or in-kind services and the value of any gifts and donations, fines, or fees. Calculate operating income as follows:

- (a1) Calculate the amount of city appropriation (Line 18b) which is operating income _____;
- (a2) Calculate the amount of county appropriation (Line 21b,23b) which is operating income _____;
- (a3) Calculate the amount of other government revenue (Line 28b,29b) which is operating income _____;
- Add a1, a2 and a3 to find the total operating income from local government _____. Enter on Line 44.

Line 45 **OPERATING INCOME FROM STATE GOVERNMENT.** Report funds distributed to public libraries by state government for expenditure by the public libraries. This includes FY 2000 funds from Open Access and Access Plus in Line 25b, Enrich Iowa funding in Line 26b, and other state funding in Line 27b. Do not include federal monies distributed by the states. Calculate the amount of income from state government which was used as operating income.

Line 46 **OPERATING INCOME FROM THE FEDERAL GOVERNMENT.** Report federal government funds distributed to public libraries, including LSTA monies distributed by the states. Calculate the amount of income from the federal government (Line 24b) which was used for operating expenses. Do not count funds which were received as income but not completely expended during the fiscal year.

Line 47 **OPERATING INCOME FROM NON-GOVERNMENTAL INCOME.** Report operating income other than that reported in Lines 44 through 46. Include, for example, gifts and donations, interest, library fines, and fees for service used for operating expenditures in FY 2000. (This amount is the total of income from Line 30b, (other grants), Line 40b, (endowments and gifts), Line 41b, (fines and fees), and Line 42b, (other income) spent in the current year. Do not include the value of any contributed services or the value of "in-kind" gifts and donations.

Line 48 **TOTAL OPERATING INCOME.** Sum of Lines 44 through 47. Total operating income should be in the range of 75-125% of total operating expenditures (Line 66).

Part IV-Expenditures

To ensure accurate reporting, consult your business officer or city clerk regarding this section. Report only such monies expended during the 2000 fiscal year, regardless of when the monies may have been received from Federal, State, local or other sources. **REPORT ALL EXPENDITURES AS WHOLE DOLLARS ONLY, OMIT CENTS.** If your library does not have an item in your budget or the information is not available, enter NA.

Line 49 **SALARIES AND WAGES.** This amount should be the salaries and wages for all library staff for the fiscal year. Include salaries and wages before deductions, but exclude "employee benefits."

Line 50,51 **EMPLOYEE (Fringe) BENEFITS.** The benefits outside of salaries and wages paid and accruing to employees regardless of whether the benefits or equivalent cash options are available to all employees. Include amounts spent by the reporting unit for direct, paid employee benefits including Social Security, retirement, medical insurance, life insurance, guaranteed disability income protection, unemployment compensation, workmen's compensation, tuition, and housing benefits. Employee benefits paid out of the public library budget should be reported on Line 50. The actual amount of employee benefits paid by the city/county is reported in Line 51.

Line 52 **PRINT MATERIALS.** Materials consisting primarily of words and usually produced by making an impression with ink on paper. Included in this category are materials that do not require magnification: books (Line 68), bound periodicals, paperback books, government documents, braille materials, ephemeral print materials, and the like.

Line 53 **SERIAL (Periodical) SUBSCRIPTIONS.** Include here the cost of serial subscriptions, which are publications issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals, magazines, newspapers, annuals (reports, yearbooks, etc.), proceedings, and transactions of societies.

Line 54 **MICROFORMS.** Include here the expenditures for microforms, which are photographic reproductions of textual, tabular, or graphic materials reduced in size so that they can normally be used only with magnification. The two main types of microforms are microreproductions on transparent material, including roll microfilm, aperture cards, microfiche and ultrafiche, and reproductions on opaque material.

Line 55-57 See definitions for Video Materials (Line 92), Audio Materials (Line 84), Film (Line 88)

Line 58 **COMPUTER SOFTWARE.** Enter expenditures for computer software, which includes procedures and associated documentation that instruct the computer to perform certain types of tasks, in contrast to the physical components or devices of a computer (hardware) (for example, WordPerfect, Paradox, Lotus 123, Pagemaker, etc.)

Line 59 **OPERATING EXPENDITURES FOR LIBRARY MATERIALS IN ELECTRONIC FORMAT.** For the most part, expenditures should be for CD-ROMs, disks, or tapes. In some cases where a computer was included as part of the package (InfoTrac, for example), the cost of the entire product should be included. Estimates are acceptable for this question, and are actually encouraged. Don't include expenditures for the types of items in Line 60.

Report operating expenditures for materials considered part of the collection, whether purchased or leased, such as CD-ROMs, magnetic tapes, and magnetic discs, that are designed to be processed by a computer or similar machine. Examples are U.S. Census data tapes, locally-mounted databases, serials, and reference tools. Include operating expenditures for equipment when the cost is inseparably bundled into the price of the information service product. Exclude operating expenditures for library system software and microcomputer software used only by the library staff. Don't include items that were reported as Capital Outlay, Line 67.

Line 60. **OPERATING EXPENDITURES FOR ELECTRONIC ACCESS.** Report only operating expenditures, not capital expenditures for new computer systems. Don't include items reported in Line 59.

Report all operating expenditures from the library budget associated with access to electronic materials and services. Include computer hardware and software used to support library operations, whether purchased or leased, mainframe and microcomputer. Include expenditures for maintenance. Include expenditures for equipment used to run information service products when that expenditure can be separated from the price of the product. Report expenditures for services provided by national, regional and local bibliographic utilities, networks, consortia and commercial services. Report all fees and usage costs associated with such services as OCLC FirstSearch or electronic document delivery. Include miscellaneous items such as phone lines, computer paper, and other supplies. *Include Internet service and telecommunications.*

Line 61 **OTHER MATERIAL.** Include all expenditures for materials not reported on lines 52-60, such as puzzles, art prints, vertical file subject heading (not individual items), filmstrips, etc.

Line 62-63 **PLANT OPERATION AND MAINTENANCE.** Operation of Plant consists of the housekeeping activities concerned with keeping the physical plant open and ready for use. It includes rent (if applicable), cleaning, disinfecting, heating, lighting, communications, power, moving furniture, handling supplies, caring for grounds, and other such housekeeping activities as are repeated somewhat regularly on a daily, weekly, monthly, or seasonal basis. Include minor repairs (e.g. broken windows). *Do not include here any items reported in Line 60.*

Line 63 **VALUE OF PLANT OPERATION.** If the library does not pay all of the costs associated with operating and maintaining the library, report the actual amount paid by the city (e.g. city pays for heat, light) on line 63; if the library budget includes money for telephone, rent, cleaning, etc., report on line 62.

Line 64 **EQUIPMENT.** Include expenditures for all library equipment purchased during the 2000 fiscal year. Includes microform equipment, audiovisual equipment computer workstations, and computer-related equipment

Line 65 **ALL OTHER OPERATING EXPENDITURES.** Include all expenditures other than those given in lines 49-64.

Line 66 **CAPITAL OUTLAY.** Include funds for the acquisition of or additions to fixed assets such as building sites, new buildings and building additions, new equipment (including major computer installations), initial book stock, furnishings for new or expanded buildings, and new vehicles. This excludes replacement and repair of existing furnishings and equipment, regular purchase of library materials, and investments for capital appreciation.

Part V-Library Collection

A **NUMBER HELD AT START OF YEAR** - The number of volumes and/or the number of titles owned by the library at the start of the fiscal year (July 1, 1999).

C **WITHDRAWN DURING FISCAL YEAR** - The number of volumes and/or titles "weeded" or lost during the fiscal year.

Line 68 **VOLUMES.** For reporting purposes, a volume is a physical unit of any printed, typewritten, handwritten, mimeographed, or processed work, contained in one binding or portfolio, hardbound or paperbound, which has been cataloged, classified, and/or

otherwise made ready for use. Include estimate of unprocessed paperbacks here.

Line 68 **BOOKS AND SERIALS.** Books are nonperiodical printed publications bound in hard or soft covers, or in loose-leaf format. Serials are publications issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals (magazines), newspapers, annuals (reports, yearbooks, etc.) memoirs, proceedings, and transactions of societies. Include books, bound periodicals and newspapers, government documents, and paperbacks. Exclude microforms and pamphlets. Except for the current volume, count unbound serials as volumes when the library has at least half of the issues in a publisher's volume.

Line 72 **GOVERNMENT DOCUMENT.** Any publication in book, serial, or other form of library material that is published by a government agency, e.g., the publications of federal, state, local, and foreign governments and of intergovernmental organizations to which governments belong and appoint representatives, such as the United Nations, Organization of American States, and the Erie Basic Commission. Do not include pamphlets.

Line 76 **CURRENT SERIALS/PERIODICAL SUBSCRIPTIONS.** This refers to the arrangements by which, in return for a sum paid in advance, periodicals, newspapers, or other serials are provided for a specified number of issues. Count subscriptions purchased from the library's budget and those donated to the library as gifts. Count titles, including duplicates, not individual issues. Include the total number of subscriptions for all outlets.

- Line 76,80 **TITLES.** For reporting purposes, a title is a publication which forms a separate bibliographic whole, whether issued in one or several volumes, reels, discs, slides, or parts. See Line 54 for a definition of **Microfilm**.
- Line 84 **AUDIO MATERIAL.** A generic term for material on which sounds (only) are stored (recorded) and that can be reproduced (played back) mechanically or electronically, or both. This includes records, audiocassettes, audiocartridges, audiodiscs, audioreels, talking books, and other sound recordings.
- Line 88 **FILM.** The term film is used interchangeably with "motion picture" which is a length of film, with or without recorded sound, bearing a sequence of still images that create the illusion of movement when projected in rapid succession (usually 18 to 24 frames per second). Motion pictures are produced in a variety of formats (cartridge, cassette, loop, and reel). Motion picture sizes may be 8mm, super 8mm, 16mm, 35mm, 55mm or 70 mm. Count filmstrips under **Other** (Line 100).
- Line 92 **VIDEO MATERIAL.** These are materials on which pictures are recorded, with or without sound. Electronic playback reproduces pictures, with or without sound, using a television receiver or monitor.
- Line 96 **COMPUTER APPLICATION SOFTWARE.** Includes procedures and associated documentation that instruct the computer to perform certain types of tasks, in contrast to the physical components or devices of a computer (hardware) (for example, WordPerfect, Paradox, Quattro Pro, etc.)
- Line 100 **OTHER.** Include all materials not already reported, such as CD-ROM based information products (for example, electronic encyclopedias on CD-ROM), puzzles, art prints, vertical file subject heading (not individual items), filmstrips, etc.

128.	Library Visits (not less than 1)**		

Line 108-119 **CIRCULATION TRANSACTION.** The total annual circulation of all library materials of all types, including renewals.

Note: Count all materials in all formats that are charged out for use outside the library. Count Interlibrary loan transactions only for items borrowed and checked out to customers. Do not include items checked out to another library. (**Do not use circulation multipliers. For example, if a film is checked out and shown to 30 people, count 1 circulation, not 30. Do not report "automatic renewals" as circulation.**) Report annual totals.

Line 109 **CIRCULATION OF CHILDREN'S BOOKS.** Children's books are those which are intended for use by persons age 14 and under regardless of the age of the person who checks out the book.

Line 116 **RECIPROCAL BORROWER.** A nonresident borrower with a valid library card from another library. Include only circulations to Iowa library patrons. Do not include circulations to patrons served by contracts with cities or counties. This is an annual total, but it may be based on a sample period survey. For a 1 week sample, multiply the sample period total by 52. (Reciprocal borrowers are those who would qualify as Open Access participants, even if their library is not an Open Access participant.)

Line 117 **CITY CIRCULATION.** This is circulation of all types of materials to those who actually live within the city limits of the city your library was established by ordinance to serve. Do not count here circulation to rural residents who have a library card from your city library.

Line 119a **RURAL CIRCULATION.** This is circulation of all types of materials to persons who are rural residents of your county. Also include those who have a valid card from another city but who actually live in the unincorporated area of the county.

Line 120,121 **INTERLIBRARY LOAN.** A transaction in which library material, or a copy of the material, is made available by one library to another upon request. It includes both lending and borrowing. The libraries involved in interlibrary loan are not under the same administration. Include items loaned to or borrowed from the State Library or the Regional Library, including A/V. Report annual totals.

Line 122 **REGISTRATION.** Report the total number of people holding valid library cards as of July 1, 1999. (If your library does not now have an accurate method of counting registration, for purposes of consistency the State Library recommends using a 3 year registration period. Multiply the total number of patrons registered during the last fiscal year (1999-00) by 3 to get your estimated total number of library registrations.)

Line 123,124 **REGISTERED BORROWERS.** Report the total number of registered borrowers added and withdrawn in FY 2000.

Line 127 **LIBRARY MATERIALS USE.** Report the total number of materials used in the library, but not checked out. This includes reference books, periodicals and all other library materials used within the library. Follow the instructions in the Output Measures manual, but conduct a one week sample. Multiply by 52 to calculate an annual total. Annual totals based on a daily count are also acceptable.

Line 128 **LIBRARY VISITS.** Report the total number of persons entering the library annually including persons attending activities, meetings, and those persons requiring no staff services. Follow the instructions in the Output Measures manual, but conduct a one week sample. Multiply by 52 to calculate an annual total, which is used by the national statistics project. Annual totals based on a daily count are also acceptable. This information is required annually for the national statistics project, FSCS.

Part VII-Output Measures

In collecting and reporting output measures, please follow the definitions and instructions provided in the Output Measures for Public Libraries, second edition, except the instructions concerning sample period. Use a one-week sample. Do not report annual figures in this section. If data is collected in two one-week periods, add the totals and divide by 2 to provide a one-week figure. In keeping with the recommendations of the Standards Committee, the State Library recommends that Output Measures surveys be conducted every 3 years. Report only the results of surveys conducted in the past year.

142.	Materials Delivered Within 30 Days (excluding #138-141)			

Line 129 **NUMBER OF REFERENCE TRANSACTIONS.** Definition: A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation or instruction in the use of one or more information sources by a member of the library staff. The term includes information and referral service. Information sources include printed and non-printed materials, Internet, FirstSearch, machine-readable databases, catalogs and other holdings, records, and through communication or referral, other libraries and institutions and persons both inside and outside the library. The request may come in person, by phone, by fax, mail, or by electronic mail from an adult, a young adult, or a child.

Do not count directional transactions or questions of rules or policies. Examples of directional transactions are "Where are the children's books?" and "I'm looking for a book with call number 612.3." An example of a question of rules or policies is "Are you open until 9:00 tonight?"

Note: If an actual count of reference transactions is unavailable, determine an annual estimate by counting reference transactions during a typical week in October and multiply the count by 52. A "typical week" is a time that is neither unusually busy or unusually slow. Avoid holiday times, vacation times for key staff, or days when unusual events are taking place in the community or in the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open.)

Line 130 **NUMBER OF REFERENCE TRANSACTIONS COMPLETED.** Report the number of reference questions completed in the same working day in which they were asked.

Line 137-142 **DOCUMENT DELIVERY.** This is a measure of how rapidly items are obtained which are not immediately available. "Document" in this sense means anything requested by a patron. In the Output Measures manual you will find instructions for how to count the delivery times. Delivery means any method used to fill the request, including interlibrary loan and reserves.

Part VIII-FSCS Statistics

These items are specifically formatted to be reported to the Federal State Cooperative System (FSCS) for Public Library Statistics

Number of Service Outlets				
143.	Central Library Facility (Not less than 1)			
144.	Branches			
145.	Bookmobile			
146.	Other Service Outlets			
Other FSCS				
147.	Total Number of Reference Transactions in 1999-00 (not less than 1)			
148.	FTE with ALA Accredited MLS			
149.	Total Number of Hours Open Each Week (Main Library)** (Not more than 90)			
150.	Total Number of Hours Open Annually (Duplicated)			
151.	Total Circulation of All Materials Cataloged as "Children's" (not > #115)			

152.	Total Number of People Attending Library Programs for Children		
Note on #151 and 152: Regardless of the age of the participant			

Line 143-146 **NUMBER OF SERVICE OUTLETS.** Use this section to report all service outlets as defined below. Service units that are **NOT OPEN TO THE PUBLIC** are **NOT** to be reported as public service outlets. Service must be provided on a regular basis throughout the year.

Line 143 **CENTRAL LIBRARY.** Enter the number of Central Libraries. A Central Library is the single unit library or the unit where the principal collections are kept and handled. Also called Main Library. Some county, multicounty and regional library systems may not have a main library. Some systems may have an administrative center which is separate from the principal collections and is not open to the public.

Line 144 **BRANCHES.** Enter the number of branch libraries. A branch library is an auxiliary unit of an Administrative Entity which has at least all of the following: (1) separate quarters, (2) an organized collection of library materials, (3) paid staff, and (4) regularly scheduled hours for opening to the public.

Line 145 **BOOKMOBILES.** These are trucks or vans specially equipped to carry books and other library materials; they serve as traveling branch libraries. Count the number of vehicles in use rather than the number of stops the vehicle makes.

Line 146 **OTHER SERVICE OUTLETS.** Enter the number of other service outlets. Examples are outlets in senior citizen centers, day care centers, jails, or other organizations or institutions with small and frequently changed collections of books and other library materials.

Line 147 **TOTAL NUMBER OF REFERENCE TRANSACTIONS.** See definition of reference transaction (Line 129). This total is obtained by multiplying the number of reference transactions in a sample period by the appropriate multiplier to arrive at an annual figure (i.e., if there were 100 transactions in a week, the total would be 100 x 52, or 5200).

Line 148 **FTE with ALA ACCREDITED MLS** from an institution accredited at the time of graduation. FTE is Full Time Equivalent (Line 6-9), ALA is the American Library Association, MLS is the Master of Library Science degree.

Line 149 **HOURS OPEN PER TYPICAL WEEK.** (Main Library) The total of hours open in a typical week.

Line 150 **TOTAL HOURS OPEN PER YEAR.** (Duplicated) Total annual public service hours for all outlets combined. If the library has no branches or bookmobiles, has the same hours year-round, and was not closed other than the regularly scheduled days and times, multiply the value given in Line 149 times 52 to determine the value for Line 150. For example, if the library was open 20 hours per week year-round and was not closed for construction or repairs, Line 149 is 20 and Line 150 is 1040. If the library had summer hours which were less or greater than winter hours, or has branches or bookmobiles, or was closed for repair or remodeling, one of the following scenarios may apply.

Report the sum of all public service hours for all library facilities (including bookmobiles) for the entire year. For bookmobiles, report only the hours in which the bookmobile is open to the public. Include only branches or bookmobiles which conform to the definitions in Line 144 or Line 145. Do not include hours for deposit collections or other similar service hours. Total annual hours should reflect any increase or decrease in hours during "summer hours." Subtract the total hours that the main library, bookmobiles, or branches were closed other than regularly scheduled days or hours. Line 150 is intended to report the exact number of hours your library was open last year. There are several possible scenarios. These are examples, for the purpose of illustration only:

SCENARIO ONE: The library is open the same number of hours year-round and was closed only for regularly scheduled days and times. Multiply hours open per week times 50 weeks.

In Scenario One, if the library is open 20 hours per week in Line 149, the value entered for Line 150 is 1,000 (20 hours x 50 weeks). This is the only scenario in which it is appropriate to use the multiplier of 50 weeks.

SCENARIO TWO: The library is open 25 hours per week in the winter and 20 hours per week in the summer. Winter hours last 40 weeks, summer hours last 12 weeks. The library was closed for 10 holidays and was also closed for remodeling for 3 weeks during the winter.

In Scenario Two, the following calculations would be made:

Hours Open -Multiply 25 (hours) x 40 (weeks) for winter hours = 1000 (a1)

-Multiply 20 (hours) x 12 (weeks) for summer hours = 240 (a2)

-Add a1 + a2 = 1240

Hours Closed -Calculate the number of holiday hours closed, for Scenario Two, let us use 10 (holidays) x 5 (hours) = 50 (b1)

-Calculate the number of hours closed for remodeling, multiply 3 (weeks) x 25 (hours) = 75 (b2)

-Add b1 + b2 = 125

Total -Subtract hours closed from hours open = 1115

SCENARIO THREE: The library has a main library, several branches, and a bookmobile. Using the methodology outlined in Scenario Two, the total hours for each outlet are calculated. Annual hours for each unit are added together to provide an annual total for all outlets.

FSCS ELECTRONIC TECHNOLOGY SURVEY

The U.S. Department of Education is collecting information on electronic technology in public libraries.

Leave blank any of the questions that do not apply to your library.

The first three questions have to do with the status of electronic technology as of the date the question is answered. These questions require only YES or NO answers.

243. **DOES THE PUBLIC LIBRARY HAVE ACCESS TO THE INTERNET?** Please check the appropriate box based on the following definition. Libraries that have Internet service from SILONET, INS, or other service providers should answer YES to this question. Also, libraries that participate in the FirstSearch project should answer YES to this question.

Yes		No	
-----	--	----	--

The Internet is the collection of networks that connect government, university and commercial agencies and is unified by the use of a single protocol suite, TCP/IP. Note: Report the library as having Internet access only if one or more of the following services are accessible: world wide web, telnet, file transfer protocol, or community network. Do not report a library that has access to electronic mail only.

244. IF THE LIBRARY HAS INTERNET ACCESS, ANSWER YES OR NO TO EACH OF THE FOLLOWING QUESTIONS. Only one selection should be checked as a YES.

Library staff only?	Yes		No	
Staff and patrons (with staff assistance)?	Yes		No	
Staff and patrons (staff assistance is optional)?	Yes		No	

245. DOES YOUR LIBRARY PROVIDE ACCESS TO ELECTRONIC SERVICES (E.G., BIBLIOGRAPHIC AND FULL-TEXT DATABASES, MULTI-MEDIA PRODUCTS)? This would include online services such as Dialog or FirstSearch as well as in-house resources such as CD-ROM based periodical indexes (e.g., InfoTrac).

Yes		No	
-----	--	----	--

These are electronic services provided either in the library or by remote access to the library. Include resources owned or leased by the library and access to remote databases and commercial services. Included are both direct patron access and staff access on behalf of patrons. Do not include Internet access.

246. NUMBER OF LIBRARY MATERIALS IN ELECTRONIC FORMAT. Do not include computer application software for programs such as WordPerfect or Excel. Include materials that are currently reported as Other Library Materials, Line 100, such as CD-ROM based encyclopedias (e.g., Grolier) and other reference materials. Report the number of units.

Number of library materials in electronic format	
--	--

Report the number of physical units such as CD-ROMs, magnetic tapes and magnetic disks that are designed to be processed by a computer. Examples are U.S. Census data tapes, locally-mounted databases, reference tools, and serials on CD-ROM, tape, or floppy disk. Exclude bibliographic records used to manage the collection, library system software, and microcomputer software used only by the library staff.

247. NUMBER OF INTERNET COMPUTERS FOR STAFF USE ONLY. Report only Internet computers that are never used by the public.

Number of Internet computers for staff use only	
---	--

248. NUMBER OF INTERNET COMPUTERS FOR PUBLIC USE. Include computers that are also used by staff and public, and by public only.

Number of Internet computers for public use	
---	--

249. ARE THE INTERNET COMPUTERS IN THE LIBRARY CONNECTED TO A LAN? Report yes or no. A LAN is a local area network that connects computers within a building. Do not report stand-alone computers.

Are the Internet computers in the library connected to a LAN?	
---	--

250. IF THE LIBRARY HAS A DIRECT, LEASED-LINE INTERNET CONNECTION, WHAT IS THE BANDWIDTH/SPEED OF THE CONNECTION? Indicate 56k, T-1, or **Other** (see 251). Do not include analog, dial-up connections. Leased-line refers to a phone line that is rented for exclusive 24-hour, 7-days-a-week use from your location to another location. The highest speed data connections require a leased line. A direct connection is made with digital equipment such as a LAN hub, a CSU/DSU unit, and a router.

250. What is the bandwidth/speed of the direct, leased-line Internet connection?	
---	--

251. If Other, please specify _____

252. NUMBER OF USERS OF ELECTRONIC RESOURCES IN A TYPICAL WEEK. Count the number of customers using electronic resources in the library in a typical week. Electronic resources include, but are not limited to, Internet (WWW, e-mail, telnet, other), online indexes, cd-rom reference sources, and the online catalog. Do not include staff use of the resources.

Number of users of electronic resources in a typical week	
--	--

Note: The number of users may be counted electronically using software, or manually, using registration logs or the enclosed Electronic Usage Survey. Count each customer that uses the electronic resources, regardless of the amount of time spent on the computer. A customer who uses the library's electronic resources three times in a week would count as three customers. For confidentiality purposes, it is recommended that, after recording the needed statistics, logs be discarded each day.

Introduction and Summary of FY2000 Statistics

The 1999-2000 edition of Iowa Public Library Statistics includes information on income, expenditures, collections, circulation, and other measures, including staff. Each section is arranged by size code, alphabetically by city. The totals and averages for each size code grouping are given immediately following the alphabetical listings. Totals and averages for all reporting libraries are given at the end of each section.

There are 532 libraries included in this publication. The *Table of Cities and Size Codes* lists the libraries alphabetically and gives their size codes. The purpose of the table is to allow a user of this publication to locate information about a specific library.

The following table lists the size code designations, the population range in each size code, the number of libraries reporting in each size code, and the total population of the reporting libraries in each size code. The total population of the 532 reporting libraries is 2,093,240. Population data is used to determine per capita figures used throughout the publication.

Size	Population Range	Number	Total Population
A	Less than 500	139	44,557
B	500-999	134	98,256
C	1,000-2,499	139	213,292
D	2,500-4,999	49	180,011
E	5,000-9,999	37	261,955
F	10,000-24,999	14	225,880
G	25,000-49,999	9	290,048
H	More than 50,000	8	721,027
I	County library	3	57,214

Library size codes are based on the jurisdiction population of the city, i.e. the population of the city which the library was established to serve.

Public library statistics are used at the local, regional, state, and national levels to compare library performance, justify budget requests, track library data over time, assist in planning and evaluation, and provide valuable information for grants and other library programs.

Each of the 50 states collects public library information according to guidelines established by the Federal State Cooperative System for public library data (FSCS). The information contained in the Iowa Public Library Statistics is based on definitions approved by FSCS. Iowa received the Kepple award from FSCS for timely and accurate data in FY99.

FSCS also provides state-by-state rankings for public libraries. According to the most recent data, Iowa public libraries rank as follows in comparison with other states:

Total income-	29	Circulation-	11
State income-	36	Library visits-	11
Salaries-	29	ILL/borrowed-	21
Books/Serials-	15	Reference Questions-	39

The following table compares FY99 and FY2000 data for Iowa libraries.

Category	FY99	FY2000	% change
Income	76,058,634	92,281,996	21.3
Expenditures	77,159,593	87,642,725	13.8
Collections	12,422,065	12,405,990	-.1
Circulation	23,581,976	25,120,257	6.5

The data elements and definitions used to collect the information included in the Iowa Public Library Statistics are included in the *Public Library General Information Survey* section at the end of the publication.

Circulation

The listings which follow are in alphabetical order by Size Code. Use the Table of Cities and Size Codes in the Introduction to locate a library. For definitions, see the Public Library General Information Survey section at the end of this document.

The Circulation section lists the number of times various types of library materials were checked out to library customers. The number of circulations per capita is also listed, as is the number of items loaned to other libraries (ILL Provided). The turnover rate shows how many times, on average, each item in the collection was checked out.
